

INNOVATION PARK LABS

Out of our network we build labs to foster joint innovation. The labs focus on technological, social or sustainable economic challenges and establish a continuous innovation ecosystem.

INPUT

Challenge

Industry, research and public sector partners participate with human resources

THE WAY WE WORK

Jan Mar Mai Jul Sep Nov

6 Sprints per Year
(meetings + work phases)

- Look back & reflect
- Enrich
- Stop, adjust, boost

identify explore prototype realize scale

1 2 3 4 5

ROI Probability

Projects are guided through the main phases of the innovation process to get ready for launching and scaling. Starting with low ROI probability towards secured profit. The park main contribution is in phase 1 to 3.

Problem Solution

We work mainly with the following methods

- Design Thinking
- Lean Start-Up
- Project Management

OUTPUT

Due to the holistic nature of innovation processes, multi-dimensional outputs are expected, such as:

- Products or infrastructure
- New competence or skills
- Social capital as trust & collaboration
- Intellectual capital
